# over Q

Quantum  
Mechanics  
Rainbow

The ship girls got  
equipment from  
the higher ups:  
restraining  
ropes.

A type of  
rope that neither  
becomes overly tight,  
nor leaves any rope  
burns or marks.

Shima-kaze-chan, you're going too slow!

Faster, faster!

Why me!?

Did you just call me slow!?

sizzle

Ahh, these ones are ready. I'll take them.

I'm number one!!

Don't give them to me till they're cooked.

I'll do it, and I'll do it fast! You think I can't handle this!?

お磯 蔵

Hello there, it's Yume no Owari.  
Thank you very much for picking this book up.

It's about Sendai being loud!  
Sendai's kai 2 is so cool! Ninja ninja.  
The 2nd half was about grilled chicken.  
Grilled chicken is delicious.  
I like both salt and sauce with it, but if I had to choose just one,  
I'd definitely choose lots of sauce.  
Sauce makes even cheap meat taste delicious. | ω • )

Anyway, let's meet again sometime!

Yume no Owari

Good morning/afternoon, it's Satake Yura.  
 It feels like we're putting out KanColle books like hotcakes,  
 it's a sort of nostalgic feeling. Before I realized, it's already July.  
 Thanks to our popularity, we keep pushing out reprints.  
 Sendai's the star this time. I haven't actually used her much (lol).  
 Now that she's gotten a kai 2, she's turned into a ninja.  
 By the way, I like salt (lol).  
 Now I guess I'd better get started on Sendai-san (lol).

Year 26 of the Heisei era, 7th month, a certain day  
 Satake Yura
